FOR IMMEDIATE RELEASE

East Haven Counseling Services to Transfer to BHcare

East Haven (March 3, 2021) The Town of East Haven will be transferring its counseling services to BHcare in Branford over the next several months.

BHcare is a Certified Community Behavioral Health Clinic and has been working with the Town for many years to care for adults and children who are struggling with behavioral health disorders. Thanks to that partnership, the transition to BHcare's clinic in Branford will be seamless. Clients who choose to remain with BHcare will be transferred automatically, if clients choose to transfer to a different provider, ECCS will help facilitate that process. Most ECCS clients who go to BHcare will likely be able to continue working with the clinician they've been seeing.

BHcare has a more than 40-year history of providing comprehensive outpatient services and supports for adults and children who are struggling with mental health, substance use and behavioral issues. "We look forward to welcoming East Haven Counseling clients in our Branford location, and to our continued partnership with the Town to ensure better health and wellness for our communities," said Roberta Cook, President/CEO of BHcare. Mayor Carfora added, "We are pleased to continue our partnership with BHcare to provide these necessary services to the residents who utilize this program".

For more information about BHcare, visit <https://BHcare.org> or call (203) 800-7177.
